

24 January 1958

Mr. Dulles:

25X1 You will recall that Shef, [] (CI) and
25X1 [] (Security) recently told you about a possible Bureau
request to another government department to set up a program
similar to our project [] Jim called this afternoon and said
that he and Shef had just completed a most "agreeable" meeting with
25X1 [] -- all ended well, the Bureau is most anxious for us to
25X1 continue [] as a project of common concern, will furnish us
leads and will share in the "take" of information of interest to the
FBI.
